

Our pricing for agencies.

We probably don't need to explain to you that every agency is different.

On the one hand, we want to be transparent with our pricing. But on the other hand, every agency has different needs. That's why we want to emphasise that this pricing model can be adapted depending on your agency's needs.

In this example model, you'll get 5 Pro Subscriptions to manage up to 5 different clients. Additionally, you'll pay €99,- per month for your 6th client.

Let us know what you need.

You might be wondering, but what if I..

- Have 3 clients I want to manage in Growf?
- Have hundreds of clients?
- Only need Starter subscriptions?
- Only want to use Growf to prepare pitches?

Don't worry.

Just book a meeting using the button below and we'll figure it out together.
